BLOOD ENERGETICS: The Quantum Nature of the Blood

By Dr. Diane Blackburn, DNM, PhD, Certified LBA, IIPA Instructor

Synopsis

In a nutshell: The data that we collect from the blood pictures originates from the physical, vital-emotional, mental layers of information.

The blood mirrors all of these aspects of the physical and subtle levels of expression. Some parameters from different layers of information will reveal the condition of the body and give indirect measurements of what is going on at a more hidden levels.
